

Project Design Phase-II

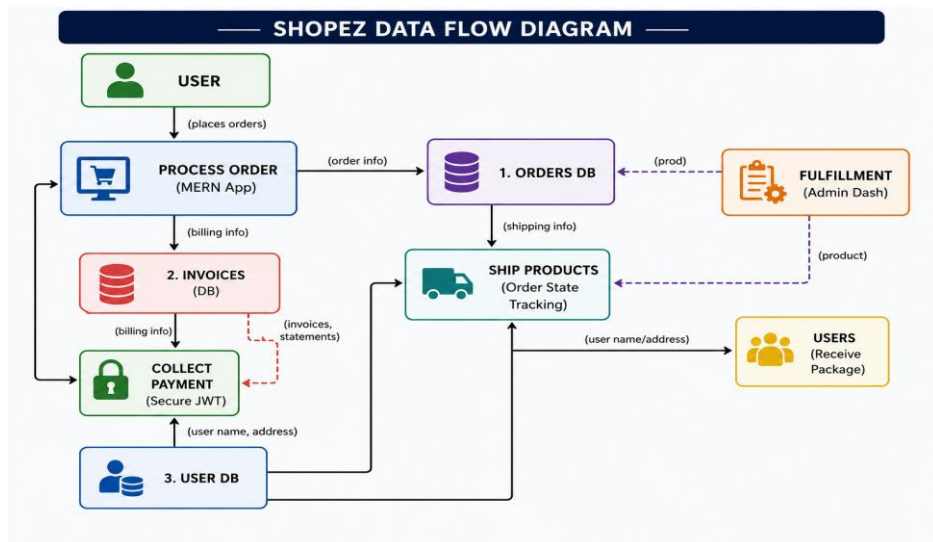

Data Flow Diagram & User Stories

Date	18 JUNE 2026
Team ID	INDIVIDUAL PROJECT
Project Name	ShopEZ: E-commerce Application
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer (User)	Registration	USN-1	As a user, I can register an account using my details	User account should be created successfully and safely securely stored in the database.	High	Sprint-1
Customer (User)	Login	USN-2	As a user, I can login using email and password	User can access their personalized shopping dashboard with a secure stateless session token (JWT).	High	Sprint-1
Customer (User)	Checkout Submission	USN-3	As a user, I can submit cart orders online via a One-Step checkout	Order and billing information should be stored successfully and securely processed.	High	Sprint-2
Customer (User)	Order Tracking	USN-4	As a user, I can check my order shipment status	The progress tracking status (Pending/Shipped/Delivered) should be instantly visible on the UI.	Medium	Sprint-2
Administrator	Order Management	USN-5	Admin can view all registered customer orders	Admin fulfillment dashboard should show all customer transactions and order histories.	High	Sprint-3

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Administrator	Status Update	USN-6	Admin can update order tracking status during delivery	Updated shipment state adjustments should reflect instantly for the end user without lag.	High	Sprint-3
Administrator	Order Fulfillment	USN-7	Admin can mark an active order package as delivered	The order should update properly and transition fully into the archived resolved history section.	Medium	Sprint-4
Fulfillment Lead	Inventory Verification	USN-8	Fulfillment system verifies catalog item availability	Product stock levels should be validated automatically before final transaction processing.	Medium	Sprint-4
