

Project Design Phase
Proposed Solution Template

Date	14 JUNE 2026
Team ID	INDIVIDUAL PROJECT
Project Name	ShopEZ: E-commerce Application
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Many online shoppers face problems such as slow-loading websites, difficult product searches, lengthy checkout processes, and concerns about payment security. These issues often lead to poor user experience and abandoned purchases.
2.	Idea / Solution description	ShopEZ is a user-friendly e-commerce web application developed using the MERN Stack (MongoDB, Express.js, React.js, and Node.js). It allows users to browse products, add items to a cart, place orders securely, and track their orders easily. The platform also provides an admin dashboard for managing products, users, and orders.
3.	Novelty / Uniqueness	ShopEZ provides a fast and responsive shopping experience with secure JWT-based authentication, efficient product search, mobile-friendly design, and real-time order status updates. The platform focuses on simplicity, security, and ease of use for both customers and administrators.
4.	Social Impact / Customer Satisfaction	The application improves the online shopping experience by making product browsing, ordering, and payment processes simple and secure. Customers can shop conveniently from anywhere, while businesses can efficiently manage their products and orders, leading to greater customer satisfaction.
5.	Business Model (Revenue Model)	ShopEZ can generate revenue through product sales commissions, premium seller subscriptions, featured product advertisements, and promotional banner placements within the platform.
6.	Scalability of the Solution	which supports future growth and expansion. New features, products, users, and services can be added easily. The MongoDB database and modular architecture allow the platform to handle increasing amounts of data and user traffic efficiently.
